

The media ownership rules, that have allowed Sinclair Broadcast Group to become the largest owner of TV stations in the U.S., is destroying the free press and democracy. They do not serve the public interest and rob viewers the chance of being better and correctly informed. When the news equal propaganda, we have taken a step back in time, and our current society more closely resemble USSR pre-glasnost, with the government blessing Sinclair's unfair use of the media.

The public need to get their airwaves back, please clean them up and remove all irresponsible large companies, who do not serve the public interest.

Please do not renew their licence, they have showed the greatest contempt for our democracy.  
Thank you.
